PROFESSIONAL SUMMARY

CEH v13-certified cybersecurity graduate with hands-on experience researching threats, vulnerabilities, and malware patterns, and translating findings into clear technical documentation and reports. Practical exposure to web and network security, open-source intelligence (OSINT), IOC extraction, and MITRE ATT&CK-mapped threat analysis using tools including Wireshark, Metasploit, Burp Suite, and Kali Linux. Skilled at breaking down technical security concepts into clear, beginner-friendly, well-documented material, with strong analytical and research skills and a fast-learning, detail-oriented approach. Eager to research emerging cybersecurity trends, support the development of training content and lab exercises, and contribute to a cybersecurity learning team.

CORE SKILLS

Threat Research and Analysis: Threat intelligence research, malware pattern analysis, IOC extraction, OSINT, MITRE ATT&CK mapping, security event correlation, log analysis

Web and Network Security: OWASP Top 10 (SQL Injection, XSS, Broken Access Control, Authentication and Session testing), vulnerability identification and mitigation, penetration testing, firewalls, IDS/IPS (Suricata), TCP/IP, DNS, HTTP/HTTPS, SSH, SMB, network traffic analysis

Security Documentation and Reporting: Technical summaries, research notes, incident documentation and escalation, compliance reporting, security policy and protocol review, presentation preparation

Tools: Wireshark, Metasploit, Burp Suite, Kali Linux, Nmap, OWASP ZAP, SQLmap, Hydra, Gobuster, YARA, Wazuh SIEM, VirusTotal API

Programming and Systems: Python 3, Bash scripting, API integration, Linux administration, Windows security fundamentals, Docker

Professional: Analytical thinking, research and documentation, clear technical communication, quick learner, detail-oriented, team collaboration, mentoring and peer support

INTERNSHIP EXPERIENCE

Cybersecurity Intern, TechByHeart, Kochi, Kerala
January 2026 to July 2026

- Researched and analyzed security alerts, logs, and system activity, performing reconnaissance and enumeration to identify exploitable vulnerabilities in web applications.
- Studied emerging vulnerabilities and mitigation strategies, supporting penetration testing and risk assessments under expert guidance.
- Investigated real-world security incidents through threat hunting and log analysis, producing clear incident documentation and technical summaries to support escalation.
- Reviewed, documented, and updated security protocols and compliance reports, collaborating within a team to align with industry standards and best practices.
- Researched current attack techniques and defensive technologies as part of ongoing professional development, and shared findings informally with team members.

CYBERSECURITY RESEARCH PROJECTS

Enterprise SOC Lab: Automated Threat Detection and Remediation
2026, ongoing

- Built an enterprise-grade SOC lab using Wazuh SIEM, Suricata IDS/IPS, and the VirusTotal API (90+ engines) with real-time file integrity monitoring and Python/Bash automation, achieving 100% detection across 6 attack scenarios in 5 to 10 seconds.
- Mapped detections to MITRE ATT&CK techniques via a custom dashboard with TLS-encrypted, failover-ready agent-manager communication to support ongoing threat research.

CID Malware Intelligence Tool (Combat Incident Detection)
2026

- Developed a SOC-grade malware intelligence platform integrating VirusTotal, Criminal IP, Hybrid Analysis, and URLScan.io APIs for multi-engine research of URLs, domains, IPs, file hashes, and APK files to study malware patterns and IOCs.
- Delivered a real-time Python/Tkinter dashboard with YARA scanning, automated IOC extraction, risk scoring, and PDF/CSV reporting for clear security documentation.

CERTIFICATIONS

Certified Ethical Hacker (CEH v13), EC-Council, 2026

Advanced SOC Analyst (ASA), TechByHeart, 2026

Security Tester (CST), TechByHeart, 2026

Networking Basics, Cisco, 2026

Fundamentals of Networking, Cisco, 2025

EDUCATION

Diploma in Cybersecurity, TechByHeart, Kochi, Kerala, 2025 to 2026

Bachelor of Computer Applications, St. Mary's College, Wayanad, Kerala, 2022 to 2025
